

## **Happy Heroes**

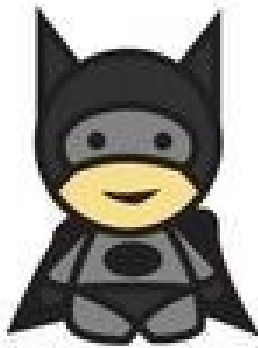

(When the team enters the room, tell them that this will be a verbal problem)

- 1) You will have 2 minutes to think and 5 minutes to respond.
- 2) Each of you has 7 cards. After each response, you will place a card in the box. You will respond in sequence. You may give responses until you no longer have any cards or until time ends, whichever occurs first.
- 3) Questions count against your thinking time. You may not skip your turn, nor repeat, nor pass. If one member of the team is stuck, the team is stuck.
- 4) Common answers will receive 1 point. Creative or humorous responses will receive 5 points.
- 5) Your problem is to give a response about 2 of the images in front of you. You must mention two of the images for the response to count for score. For example, you might say, "3 can fly, but 1 cannot" or "2 and 5 together make Christmas colors."

### **For Judges Only**

- 1) Provide 35 cards. If you have colored cards or cards that are somehow marked, that works the best.
- 2) Print out the image below and place it on the table in front of the team.
- 3) Try to reward outside the box answers and humor here. Pay special attention to how the team members compare the images. Reward them if they use things like similes or compare them in unusual ways.
